VCQP-001 Rev A

**Vishay Policy Statement
Product Shelf Life**

In the electronic industry there has been a concern over the shelf life of older products. Vishay maintains that its product will have a minimum shelf life of three (3) years for packaged parts from the date code of the manufacturing. This assumes that the product has the following storage conditions.

Temperature: 10 to 30C*

Humidity: 20 to 75%

No condensation on the parts

Parts are not exposed to direct sunlight.

*Aluminum Electrolytic Capacitors the maximum temperature is 25C

Please contact your local Sales office to get specific shelf life information for Bare Die and Die on Film/Leadframes.

It is important to note that this statement pertains to the usability of the product, nothing stated herein shall be construed as a guarantee of quality or durability. For specific commercial terms, including warranty obligations, please see Vishay's Terms and Conditions.
